

Order Formats Manufacturers can receive from RepTime

RepTime has several predefined file formats to help manufacturers import orders faster and accurately. Take the moment to review the information below to see how you could start receiving orders from RepTime in other file formats to utilize to import into your accounting software. We are available to discuss any processes. Feel free to email us with any questions or concerns at support@reptime.com.

**** Click here to download and view Sample Order Formats**

Integration Types	Format	Description
Email PDF	.PDF	DEFAULT METHOD: PDF file emailed to any two email addresses.
Synqware Web Service	Web Services	Visit synqware.com to learn more.
QuickBooks	TXT, CSV, & XLS	Import integrations to these major software systems are available in multiple texts and excel format layouts that you will find in the zip file. RepTime has worked with Manufacturers using these products and importing information accurately.
Peachtree	TXT, CSV, & XLS	
MS GreatPlains	TXT, CSV, & XLS	
Sage Software	TXT, CSV, & XLS	
MS Dynamics	TXT, CSV, & XLS	
Transaction Pro	TXT, CSV, & XLS	
Fixed Length Text Files	.TXT	There are also several different unique file formats generated that can work with software's other than the ones listed above. RepTime has the capabilities to offering any file format needed to a Manufacturer.
Comma Separated Files	.CSV	
Tab Delimited Files	.TSV	
Excel XLS File Formats	.XLS	
Extensible Markup Language	.XML	

If you are not able to find a file that fits your import process. RepTime can create a custom file for you with your mappings and criteria. Simply follow the steps below:

- Email your request to **support@reptime.com**
- Include your **Manufacturer Name** and **Main Contact Information**.
- Include the **Type of File Format** (CSV, TXT, etc.)
- Include a **Sample Electronic Order File** and a **PDF Order Copy** to help distinguish field names.
- Include any **extra "mapping" details** and special references we may need to know about.

The process will take RepTime approx. **10 to 15 business days** to create and execute. The development cost to create a custom file will be \$150/hr. and \$30 monthly for maintenance and support.
