

RepTime Image Specifications

To upload images to RepTime, there are certain requirements to the images that are important to be aware of. Take a moment to see the list below to ensure your images import successfully. To import items, you do this on the reptimeportal.com. Visit our RepTime Helpdesk to learn more.

RepTime is available to discuss any of these processes in detail. If you have any questions or concerns, contact us at support@reptime.com.

Image File Specifications

- ✓ **Image Name:** Each item must be labeled exactly as the Item Number. i.e. **ABC100.jpg**
- ✓ **Pixel Size of Image(s):** Sizes can vary to any size. We recommend users 600 x 600 pixels or larger. Very small images could also be an issue. This does not mean it **MUST** be this size. The system can show ANY size images however there are always minor issues on automatic resizing. Therefore, we ask to help make the process smoother.
- ✓ **File Size of Image(s):** File Size **must** be less than 4MB. Preferably between 10kb to 500kb per image is good. The larger the image size is the longer the downloads will take for the reps to see.
- ✓ **File Format:** All images **must** be in JPEG or PNG image formats only. No Other Format Accepted
- ✓ **Recommended Tips:** Try to obtain white background for images for better visibility of products.

Sample Item # LION123

File Name* - LION123.jpg

Description - Toy Lion King Figure

Size - 198kbs**

** Cannot be any other formats*

*** Sizes must be less than 4MB*

THIS IS JUST AN EXAMPLE. IMAGES DO NOT NECESSARILY HAVE TO MATCH THIS ITEM SIZING.
